Transport Project

## National decarbonisation strategies in the transport sector: the example of Germany

**Monday,  
May 8, 2017**  
13:00 – 14:00 (CEST)

### Speakers

**Dr. Tania Rödiger-Vorwerk**  
Deputy Director General for Environment  
and Infrastructure (BMZ)

**Christian Hochfeld**  
Director of Agora Verkehrswende

**Dr. Tania Rödiger-Vorwerk** has launched the Transformative Urban Mobility Initiative (TUMI) at the UN Habitat III Conference in Quito, Ecuador in October 2016. She will reflect the necessity for a global transformation of the transport sector and how the German development cooperation jointly with its international partners plans to empower particularly local stakeholders in our partner countries.

In this webinar **Christian Hochfeld** provides a detailed insight into the decarbonisation strategy of Germany's transport sector and the intention behind Agora Verkehrswende – Transforming Transportation. The initiative is a division of the non-profit organisation Smart Energy for Europe Platform (SEFEP) gGmbH.

Implemented by

**giz** Deutsche Gesellschaft  
für Internationale  
Zusammenarbeit (GIZ) GmbH
